

GOOGLE SKETCHUP Installation Process

To download the Google Sketchup material library file on your computer you will have to follow the following instructions:

Step 1: Click on the Google Sketchup icon, to start downloading

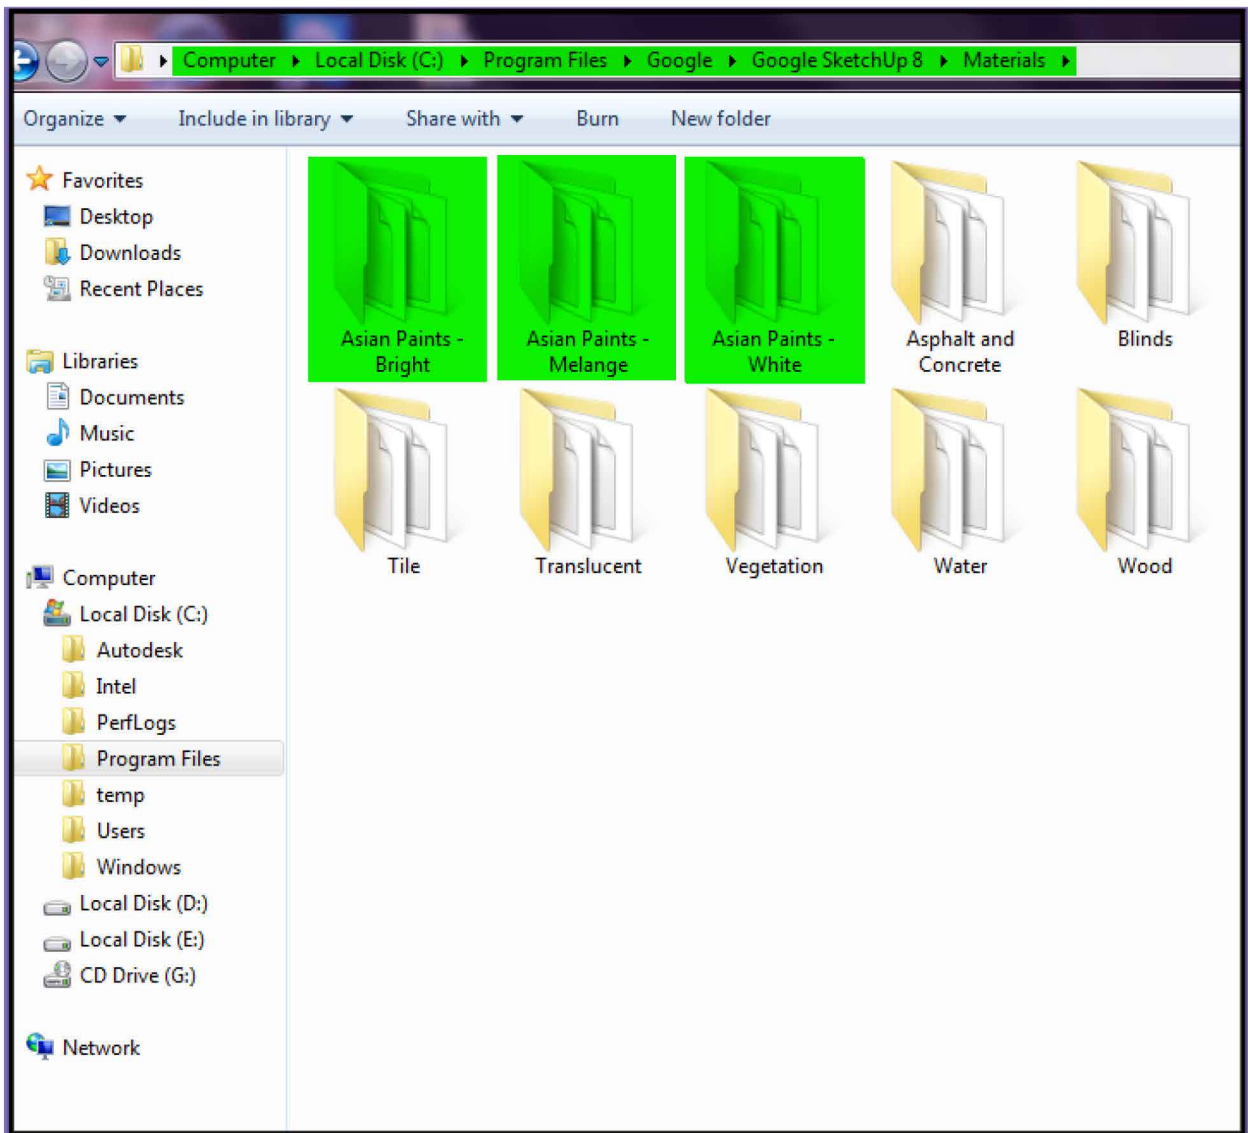

The screenshot shows the BERGER website's navigation bar with links: About Us, Research & Technology, Video Center, FAQs, Locators, Connect with Us, Careers, and Specifications Manual. Below the navigation bar is the BERGER logo and a MENU icon. On the right side, there are icons for search, globe, user profile, and a tool. The breadcrumb trail reads "Home \ Professional Tools". The main heading is "PROFESSIONAL TOOLS". Below this, a text block states: "Now you can download plug-ins for Photoshop, AutoCAD, 3ds Max, and Google SketchUp to match your designs with the perfect shade and effect from Berger's range of 1800 original hues." There are four icons representing the software: Adobe Photoshop (Ps), Autodesk AutoCAD (A), SketchUp (SketchUp), and Autodesk 3ds Max. The SketchUp icon is highlighted with a blue arrow pointing upwards.

Step 2: Once you download the Google Sketchup zip file, extract it on the Desktop. You will have three files which are:

Asian Paints – Bright Asian Paints – Melange Asian Paints - White

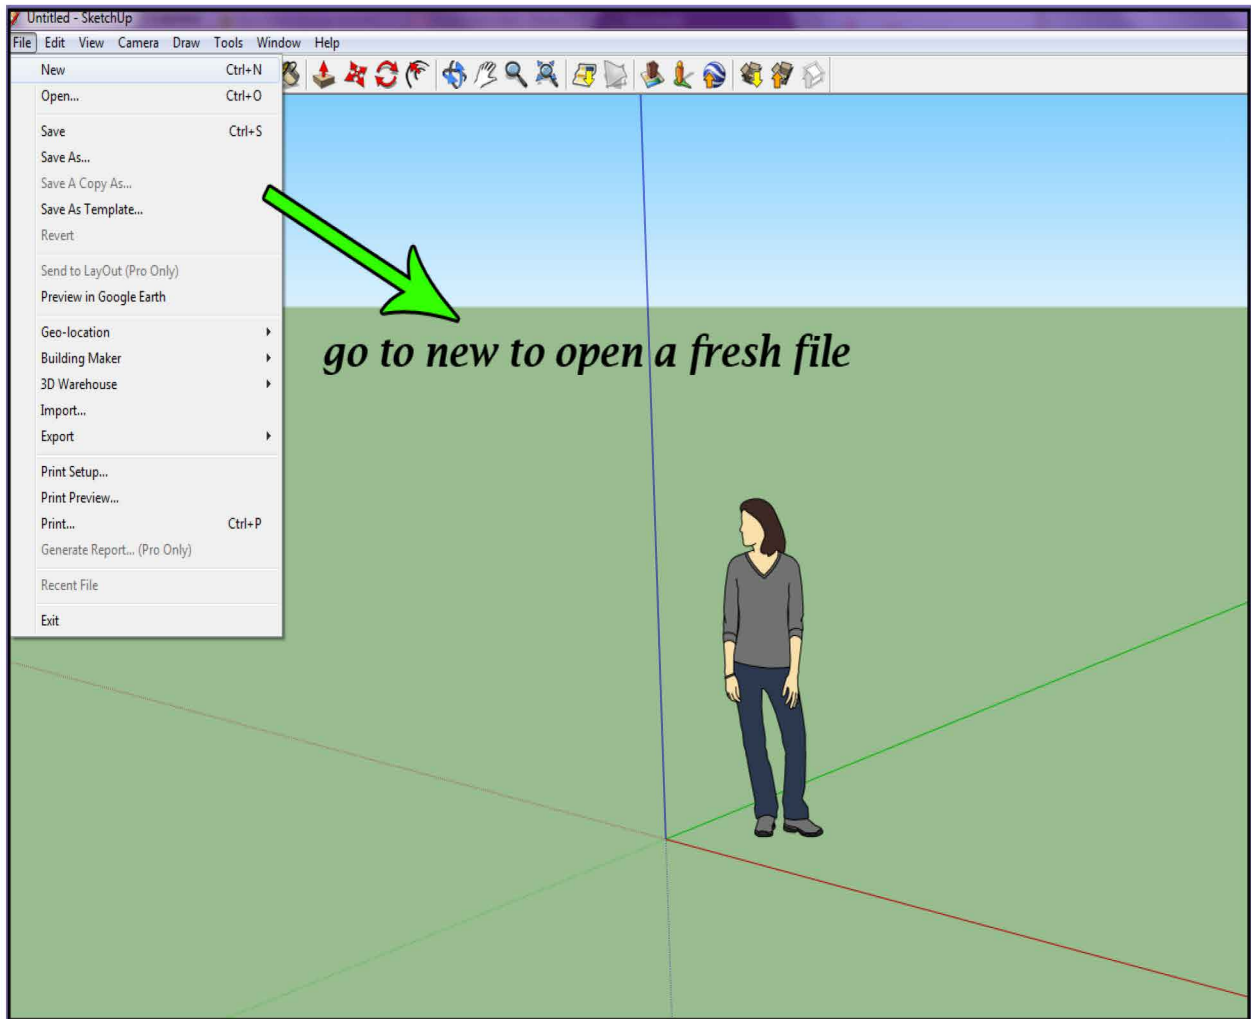

Step 3: Now copy all the three files from the extracted folder and paste it to the Materials folder in Google SketchUp:

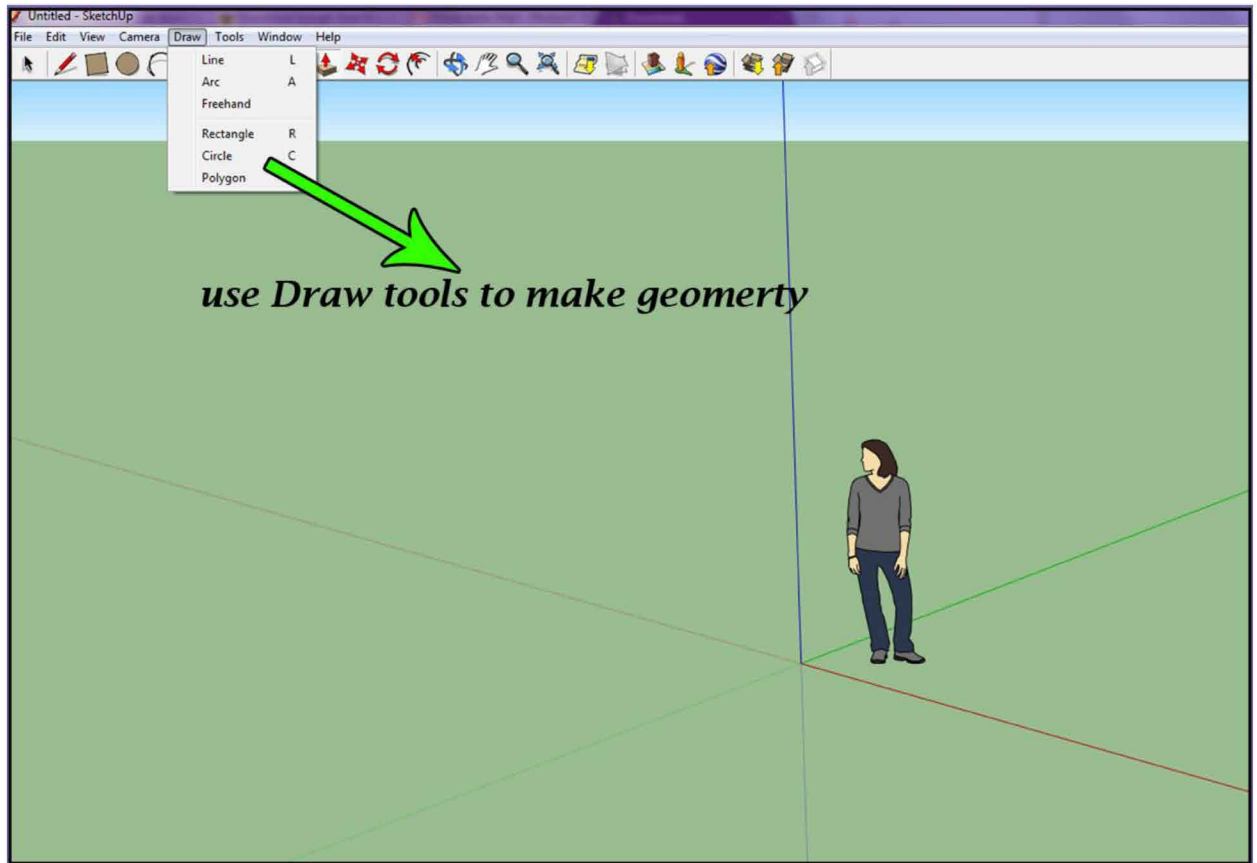

- These three highlighted files in the box are the ASIAN PAINTS colour Books.
- And above in the box green highlighted portion is the path where you have to paste the Colour Books.

USER MANUAL

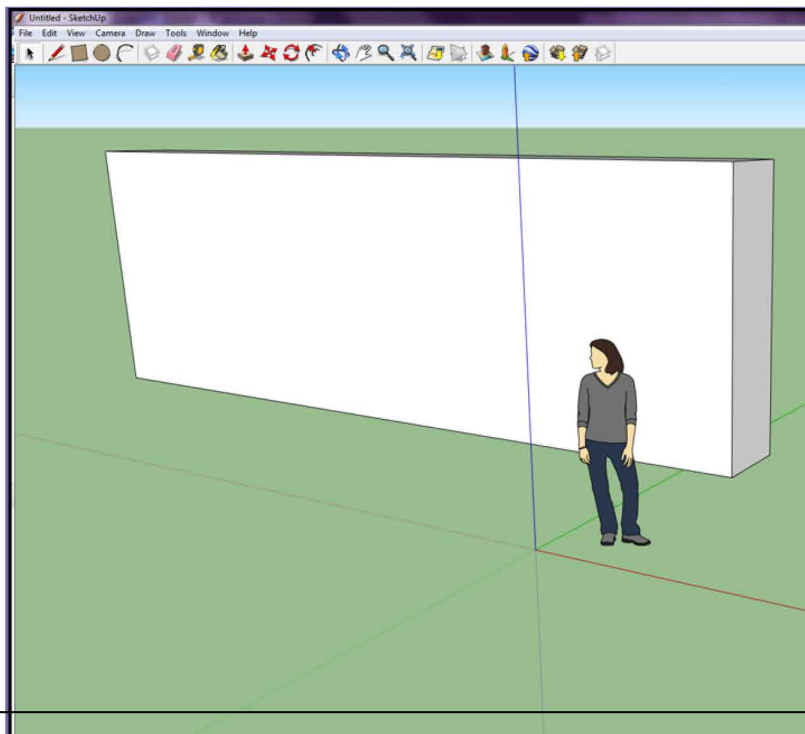

Step 1: Open the software GOOGLE SKETCHUP. Click on the "FILE" button to open a new file.

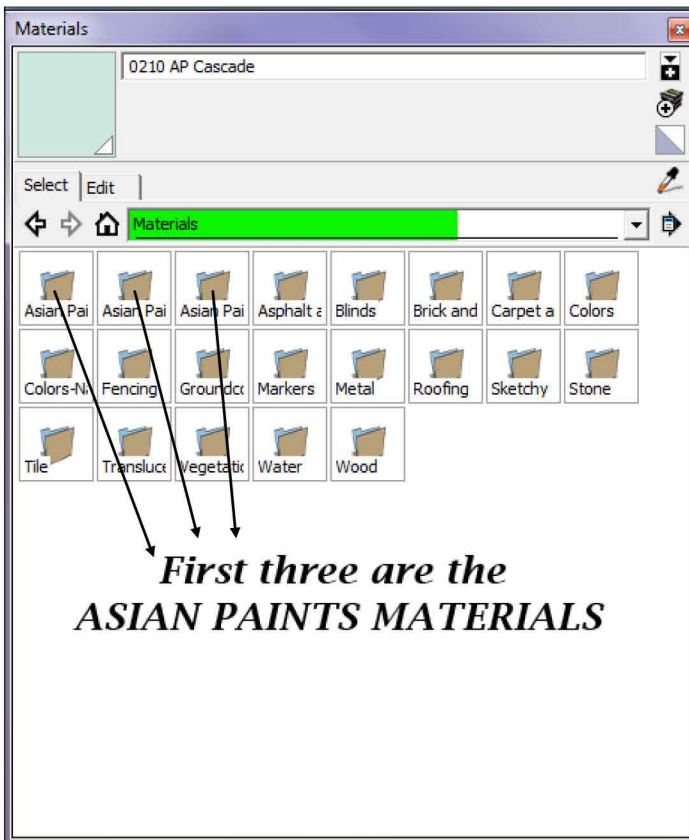

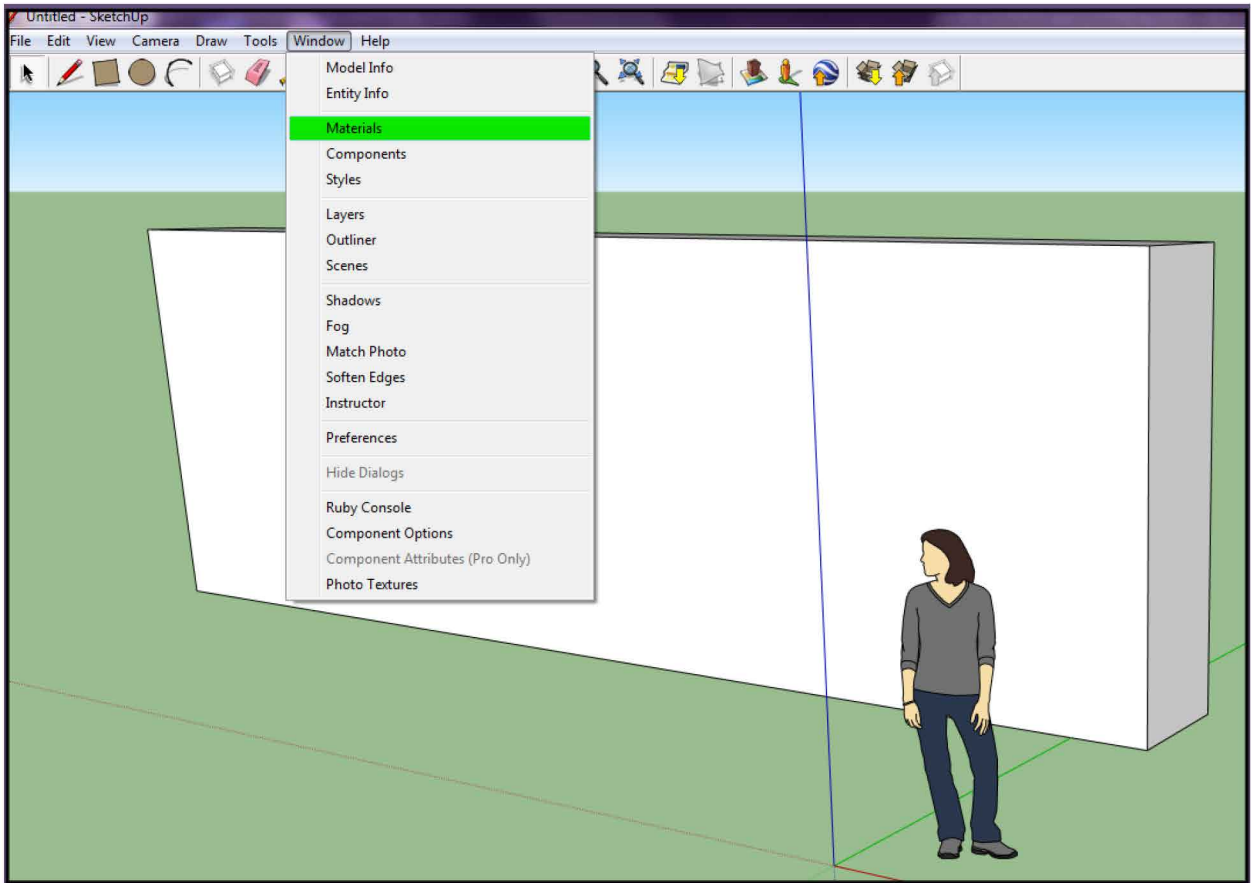

STEP 2: To draw objects, select “DRAW” tools which are highlighted below in the picture:

- Go to draw mode and select the option called rectangle to make wall.
- Now use “PUSH AND PULL” option to give height to the wall.

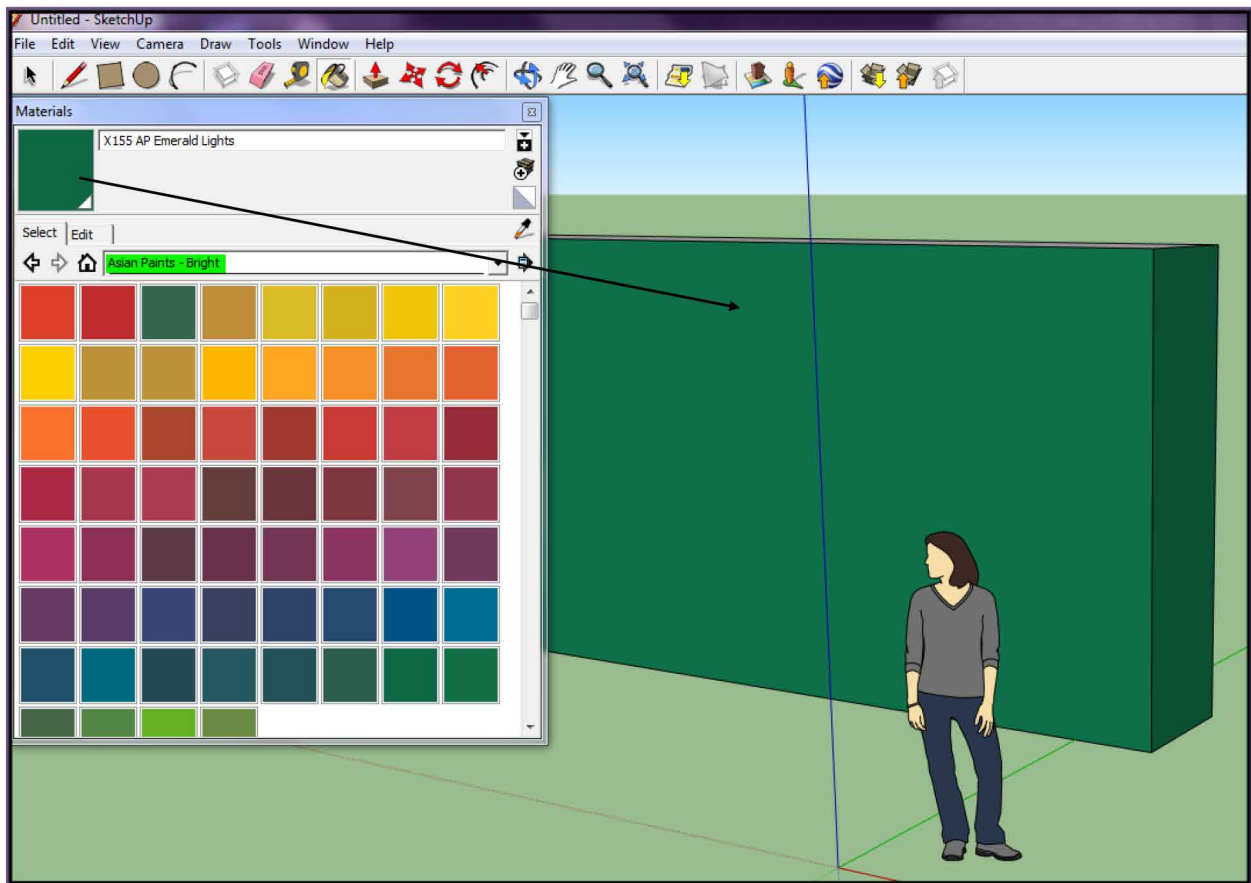

STEP 3: Click on the box below given in the picture to open a Material Editor Slot.

- Click on the Material slot which is highlighted in the picture.
- Next you have to click any of the material slot to get the COLOR BOOK.

STEP 4: Once you click on the small icon in material editor you will see a new window coming up which is called "Materials" as shown in the picture below:

- Once you select any of the ASIAN PAINTS COLOR BOOK, you will see list of colours in the material box as shown in the picture
- Now just select any colour and drag it on the wall. You will have your selected colour on the wall.
